This plan features a huge kitchen bar which can seat 6. There is a built in hutch in the dining area and bedroom #2 has built in shelves. The master bath has 6’ roman shower with an onyx base, caddy and seat. The walls can by onyx or tiled. A centered sink in the vanity allows for plenty of space next to a linen cabinet. The version above has a pantry with roll out trays included in the kitchen as well as an under counter smaller refrigerator, great for drinks (or modify for more cabinet space). The entry to the master suite is through the master bathroom. The Republic B version (left) has an additional master bedroom entry from the living room, and the pantry is just inside the laundry area with an additional linen cabinet.
